CODY BRUNNER

+57 (302) 745-0968 | me@codybrunner.com| linkedin.com/in/cody-brunner | github.com/rockchalkwushock | www.codybrunner.com

Results-driven software engineer with 6+ years of experience in frontend and full-stack development. Specializes in **React, TypeScript, Node.js, Elixir, Go and AWS**, building scalable, high-performance applications.

Passionate about **cloud-native solutions**, leveraging expertise as an **AWS Certified Cloud Practitioner** to design and optimize infrastructure. Experienced in international teams, with **intermediate Spanish** proficiency. Proven ability to deliver optimized, production-ready software while improving system maintainability and scalability.

WORK EXPERIENCE

Founder & Open-Source Contributor   **Feb 2022 – Present**
JokinglyBadTech LLC   Cheyenne, Wyoming

- Develops and maintains open-source projects like **rehype-code-titles - npm**.
- Creates **cloud-based automation** initiatives to optimize web performance and development workflows.
- Built developer tools and libraries, fostering GitHub contributions and developer community engagement.

Senior Frontend Developer   **Oct 2022 – Aug 2024**
WAO Fintech (Bitcoin IRA)   Sherman Oaks, California

- **Architected and maintained** frontend applications using React, Remix, and TypeScript on an Azure-based infrastructure.
- **Developed API integrations** for real-time financial transactions, ensuring security and compliance.
- **Refactored UI components** to enhance performance and maintainability, improving load times.

Frontend Developer   **Oct 2021 – Oct 2022**
Appointlet   Portland, Oregon

- **Refactored and modernized Appointlet's V5 architecture**, optimizing maintainability and performance.
- **Developed and enhanced dashboard UI**, improving scheduling and user experience
- **Optimized frontend performance**, reducing load times and increasing responsiveness

Senior Developer   **Jun 2021 – Mar 2022**
Lean Tech (XLR8)   Medellin, Colombia

- **Led full-stack development on XLR8**, optimizing automation processes with Node.js and Python on an AWS-based architecture.
- **Implemented scalable microservices** and integrated third-party APIs for automation pipelines.
- Refactored backend architecture, improving code reusability and maintainability.

Web Developer   **Sep 2018 – Apr 2021**
Appointlet   Portland, Oregon

- **Built and launched the Appointlet Chrome Extension**, streamlining scheduling workflows.
- **Developed a client-side booking system**, ensuring real-time data synchronization with the backend.
- **Implemented SEO and accessibility improvements**, increasing adoption and visibility.

CLIENT PROJECTS

DM App | Go, Postgres, React

- Developed a secure, real-time messaging platform optimized for professional networking and collaboration, integrating end-to-end encryption and smart message filtering.

Weeldi | Elixir, Postgres, React

- Designed backend automation tools with Elixir and PostgreSQL, improving task execution reliability.

EDUCATION

BA, Criminal Justice & Sociology   **2011**
Kansas Wesleyan University

PDX Code Guild   **2018**
Full Stack Web Development Bootcamp

Wichita Area Technical College   **2015**
AAS, Robotics Technology

TECHNICAL SKILLS

Frontend | React.js, Next.js, Remix, Tailwind CSS
Backend | Node.js, Django, Phoenix, GraphQL, REST APIs
Languages | JavaScript, TypeScript, Python, Elixir, Go
Cloud & DevOps | AWS (Lambda, DynamoDB, S3), Azure, Docker, Kubernetes, CI/CD
Testing | Jest, Cypress, Unit & Integration Testing

MILITARY SERVICE

US Navy Reserve – Logistics Specialist, 2nd Class   **Apr 2009 – Oct 2011**
                                                                                  Afghanistan

- Managed high-pressure logistics & supply chain operations.
- Conducted classified equipment disposal & asset reutilization.
- Developed leadership & problem-solving skills in mission-critical environments
